SUMMARY

I'm a seasoned developer with a strong e-commerce background. I like to coach and mentor, write more docstrings than code, and I will always strive for simplicity. I can also do consulting, product and management roles, but my heart is with software development. I was a maintainer of Python's leading ecommerce framework [django-oscar](#), and founded an online marketplace. I'm well connected in the Python community: I [spoke](#) at DjangoCon Europe and PyCon Namibia, attended Django Under The Hood and am active in local user groups.
